SUMMARY

Hi, I'm a Frontend Developer who can quickly adapt to new languages and technologies when needed.

With over 5 years of experience building web applications—from outsourcing to product companies, along with several side projects—I have gained strong adaptability in learning new technologies and maintaining legacy codebases.

I am eager to leverage my expertise to contribute to impactful projects and deliver value to the company.

KEY SKILLS

Languages & Platforms: JavaScript (ES6+), TypeScript, Liquid (Shopify), Salesforce Commerce Cloud (SFRA).

Front-end: ReactJS, NextJS, Redux/Toolkit, Context API, React Query, React Hook Form, Zod/Yup, Lodash, Immer.

APIs & Networking: RESTful APIs, Axios, Fetch.

UI & Styling: Tailwind CSS, Ant Design, ShadcnUI, MagicUI, Chakra UI, Bootstrap, SCSS Modules, Styled Components.

Testing: Jest, Vitest, React Testing Library (RTL), MSW, Snapshot Testing.

Build & Tools: Vite, Webpack, Babel.

CI/CD & Cloud: GitHub Actions, AWS (EC2, S3, CloudFront), Cartridge build & deploy, SFCC sandbox/staging/production, CDN/static assets, Vercel, Netlify.

Version Control & Workflow: Git, GitHub, Bitbucket, Agile/Scrum methodologies, Jira.

Others:

- Design Patterns, Atomic Design, Mobile-First UI, Lazy loading, Memoization.
- Figma, Zeplin, Photoshop, Illustrator, Canva.

WORK EXPERIENCE

Merkle VN – Data-driven CX & E-commerce Solutions **Mar 2023 - Present**

Frontend Developer

- Delivered 5+ projects across E-commerce, Travel, Real Estate Platform,... in a hybrid environment.
- Developed responsive, mobile-first front-end applications from Figma designs, integrating with backend APIs for dynamic, data-driven content.
- Optimized UI rendering, code quality, and reusability with custom hooks, improving maintainability and scalability.
- Developed landing pages from Figma designs, ensuring mobile-first design and alignment with client requirements.
- Delivered new features rapidly in Agile sprints, leveraging CI/CD pipelines and close collaboration with cross-functional teams.

Technical stacks: ReactJs, Tailwind CSS, ShadnUI, Redux, Styled Components, Salesforce, RESTful APIs, Swiper.

Isobar Commerce – Digital Commerce & Customer Solutions **June 2020 - Feb 2023**

Frontend Developer

- Collaborated with design and QA teams to ensure seamless functionality and optimal user experience.
- Implemented core architecture and conducted code reviews for 3+ projects; mentored interns.
- Applied SCSS Modules for component styling to maintain consistent UI design.

- Determined sprint goals and task lists for each sprint, collaborating with team members to accurately estimate the time and resources needed for each task.
- Implemented and deployed new product features rapidly, leveraging Agile methodology, automated testing, and CI/CD workflows.

Technical stacks: ReactJS, Redux, ReactHookForm, Tailwind CSS, RESTful APIs, Salesforce, Bazaarvoice Reviews.

AixBLOCK

Feb 2018 - June 2020

Frontend Developer

- Resolved critical API integration issues, reducing backend load and improving performance
- Optimized front-end performance: cut load times by 70% via caching, lazy loading, and bundling, increasing user engagement.
- Collaborated with backend developers to integrate real data with layouts and clarify task requirements.
- Supported QA team in verifying completed features and ensuring high-quality releases.
- Provided UX/UI suggestions to clients and project leads, improving usability.
- Followed Agile methodologies, participated in daily stand-ups, and ensured timely delivery of milestones.
- Developed unit tests and test plans for components and services, improving code reliability and reducing errors.

Technical stacks: ReactJS, React Query, Context API, React Hook Form, Yup, Vitest, Ant Design, React Testing Library, Lodash, Immer.

CERTIFICATES & AWARDS

- Received the Outstanding Developer Award (2022)
- Frontend profesional Reactjs/Nextjs developer.
- CI/CD Deploy React, Next, Node.

EDUCATION

- Software Engineering

PROJECTS

ASICS (US, AEB, JP)

Specializing in sportswear and athletic equipment.

Technical stacks: ReactJS

Team size: 10

Responsibility:

- Utilized AWS Amplify for authentication
- Developed interfaces as per specifications
- Utilized RESTful for API calls
- Writing unit test

T2 tea (AU)

Offers over 100 varieties, including black, green, white, herbal, and fruit infusions. In addition to teas, T2 provides a wide selection of teawares such as teapots, cups, and infusers.

Technical stacks: ReactJS, MUI, AWS Amplify, Dynamodb, NodeJS, GraphQL

Team size: 10

Responsibility:

- Utilized AWS Amplify for authentication
- Developed interfaces as per specifications
- Utilized GraphQL for API calls
- Writing unit test

PUMA (PH, US)

My role here involves building the UI. This is an education platform where students can select both their preferred instructors and the lectures they want

Technical stacks: ReactJS, Tailwind CSS, Swipper, Webpack, RESTful APIs, Bazaarvoice Reviews

Team size: 10

Responsibility:

- Utilized AWS Amplify for authentication
- Developed interfaces as per specifications
- Utilized GraphQL for API calls
- Writing unit test

AEON SPORTS Site

A division of AEON SIGNA Sports United (ASSU), focusing on team sports.

Technical stacks: ReactJS, MUI, AWS Amplify, Dynamodb, NodeJS, GraphQL

Team size: 10

Responsibility:

- Utilized AWS Amplify for authentication
- Developed interfaces as per specifications
- Utilized GraphQL for API calls
- Writing unit test

PANDORA (US, AU)

My role here involves building the UI. This is an education platform where students can select both their preferred instructors and the lectures they want

Technical stacks: ReactJS, MUI, AWS Amplify, Dynamodb, NodeJS, GraphQL

Team size: 10

Responsibility:

- Utilized AWS Amplify for authentication
- Developed interfaces as per specifications
- Utilized GraphQL for API calls
- Writing unit test

Laura Mercier

Offering a wide range of makeup and skincare products.

Technical stacks: ReactJS, MUI, AWS Amplify, Dynamodb, NodeJS, GraphQL

Team size: 10

Responsibility:

- Utilized AWS Amplify for authentication
- Developed interfaces as per specifications

- Utilized GraphQL for API calls
- Writing unit test

LANGUAGES

- **English**
Read and understand specialized documents. Good communication.
- **Vietnamese**
Native speaker.
